The VICTORIAN 4 is one of our most popular designs. Sometimes known as the “school radiator,” its design and production in the 19th and 20th century endured for decades. The VICTORIAN 4 is suited to a variety of property designs and interior settings.

All cast iron radiators are carefully hand built to your own required BTUS and fully assembled ready for plumbing into your new or existing pipework. The VICTORIAN 4 can be finished in a variety of colours – metallic, Farrow & Ball range, RAL colours or primed for onsite painting. Because each radiator section is specially hand cast there may be a slight variation in the length of each radiator once built (end bush to end bush), please allow for this in your pipework fitting.
